Aesir Interactive makes tracks for Publishing with the IP EverRail

Ort:	Ort Munich, Germany
Veröffentlicht von:	community@aesir-interactive.com

Aesir Interactive has announced the new original IP, EverRail.

Aesir Interactive, the studio behind the successful *Police Simulator: Patrol Officers* and the highly anticipated open-world adventure game *The Legend of Khiimori,* has announced the new original IP, ***EverRail.***

Aesir Interactive enters Publishing

In collaboration with Icebird Studios, Aesir Interactive is taking steps into publishing for the first time in its history. With over a decade in the games industry as a developer and a well-established relationship with diverse publishers, the Munich-headquartered team is ready to take the lead and realize their own passion project.

“We are proud to announce that Aesir Interactive is taking the next bold step in its more than 10-year company history by entering self-publishing! The exciting IP EverRail and the cooperation with Icebird Studios is an ideal opportunity and partnership.”

Wolfgang Emmer, CEO Aesir Interactive

Developed by Icebird Studios

Icebird Studios is part of the Aesir Interactive network and developer of their original IP ***EverRail***. Icebird Studios represents the same standards of quality, sharing the same corporate values, and willingness to work closely and transparently with their community to develop better games.

About EverRail:

Move or freeze!

EverRail is an open world survival crafting odyssey set in a frozen wasteland. Ride the rails, glide through the air, and brave the cold on foot!

The world has frozen over! Your only lifeline? A battery powered train, roaring across the icy wasteland. Build, explore, and survive in this open world survival craft game where mobility is everything. If the battery dies, we all die!

Unique Tricore Gameplay: On Rails, On Foot, In Air!

- **On Rails:** Steer a fast train with hundreds of wagons.
- **On Foot:** Embark on roguelike expeditions.
- **In Air:** Ride a glider for scouting and energy harvesting.

Key Features to survive in the frozen wastelands!

Train-Based Survival

The train is your home, your workshop, and our fortress. Upgrade it, keep it moving so the engine’s battery recharges as the survival of humanity is bound to these rails!

Glider Scouting

Take to the skies with your glider to scout terrain, locate resources, harvest energy, and uncover secrets hidden in the frostbitten landscape.

On-Foot Expeditions

Leave the safety of your train to scavenge ruins, battle enemies and the elements, and uncover the mysteries of a world lost to ice.

Craft. Build. Upgrade

Gather resources to craft tools crucial for survival, build outposts, and upgrade your train into an unstoppable survival base.

Dynamic Winter Wasteland

Explore a vast, infinite, procedurally generated open world filled with abandoned settlements, frozen forests, and ancient relics. Unforgiving weather, enemies, and terrain constantly challenge your survival.

Stay Alive. Alone or Together

Prepare to ride the rails into the unknown, alone or with friends in online co-op multiplayer.

Fall, and a passenger takes your place. But if the last soul on board perishes, the journey ends for everyone…
