## THE GAME

---

### **Move or freeze!**

*EverRail* is an open world survival crafting odyssey set in a frozen wasteland. Ride the rails, glide through the air, and brave the cold on foot!

The world has frozen over! Your only lifeline? A battery powered train, roaring across the icy wasteland. Build, explore, and survive in this open world survival craft game where mobility is everything. If the battery dies, we all die!

### **Unique Tricore Gameplay: On Rails, On Foot, In Air!**

- **On Rails:** Steer a fast train with hundreds of wagons.
- **On Foot:** Embark on roguelike expeditions.
- **In Air:** Ride a glider for scouting and resource harvesting.

## KEY FEATURES

### **Train-Based Survival**

The train is your home, your workshop, and our fortress. Upgrade it, keep it moving so the engine's battery recharges as the survival of humanity is bound to these rails!

### **Glider Scouting**

Take to the skies with your glider to scout terrain, locate and harvest resources, and uncover secrets hidden in the frostbitten landscape!

### **On-Foot Expeditions**

Leave the safety of your train to scavenge ruins, battle enemies and the elements, and uncover the mysteries of a world lost to ice!

### **Craft. Build. Upgrade.**

Gather resources to craft tools crucial for survival, build outposts, and upgrade your train into an unstoppable survival base!

### **Dynamic Winter Wasteland**

Explore a vast, infinite, procedurally generated open world filled with abandoned settlements, frozen forests, and ancient relics. Unforgiving weather, enemies, and terrain constantly challenge your survival!

### **Stay Alive. Alone or Together.**

Prepare to ride the rails into the unknown, alone or with friends in online co-op multiplayer. Fall, and a passenger takes your place. But if the last soul on board perishes, the journey ends for everyone...
